

WHY PRELUDE?

Prelude Homes & Services Memory Care Cottages seek to create communities where elders are valued, families are family and God is glorified. We do so in our Memory Care Cottages through providing compassionate, state-of-the-art care for those we serve. We use strength-based programming that focuses on each individual's personal preferences, strengths and life-legacy.

LIFE LEGACY PROGRAMMING

Prelude Homes & Services recognizes that each of our residents come to us with a unique history. We believe that the life they have lived is their legacy, and knowing it enables us to adapt our care and interactions with them to meet their individual needs. Our Life Legacy Program™ is based on this philosophy.

SPIRITUAL CARE PROGRAM

We believe that each person is valuable, is loved by God, and has a purpose in life. Through daily devotions, daily Bible studies, weekly chapel services and one-to-one interaction with residents, our Pastors seek to help each resident know that God loves them and God is with them.

PHYSICAL ENVIRONMENT

Prelude Homes & Services has been designed for the unique needs of individuals with dementia. Our cottages are self contained, serving 12 or less residents. The living spaces and furnishings have been designed to provide comfortable and familiar surroundings for our residents.

PRELUDE'S PILLARS OF ENGAGEMENT

Prelude's engagement program focuses on giving each resident a sense of worth, purpose, autonomy, social confidence, community, hope and enjoyment of each day. Our engagement program is built around five pillars.

1. Mind
2. Music
3. Physical
4. Service
5. Spiritual
